## Defects Fixed

### **2.1 HQMF Update for 3 QDM Immunization Datatypes**

HQMF output was modified for three QDM Immunization datatypes to match the QDM-based HQMF Implementation Guide, Release 1.3:

- **Immunization, Allergy** - The entity node `playingManufacturedMaterial`, containing the value set information, was changed to `playingEntity`.
- **Immunization, Intolerance** - The entity node `playingManufacturedMaterial`, containing the value set information, was changed to `playingMaterial`.
- **Immunization, Order** - The value for the `statusCode` node was changed from "COMPLETED" to "ACTIVE".
