MAT Production - Release Notes

Scheduled Release 03/19/2020

March 19, 2020

The MAT Bonnie Team

.01
Production MAT

Production MAT Release Notes

The Production MAT release contains the following:

- Correction of a typographical error in the System Use Notification page

- Visibility of Accept button in System Use Notification page

  - On some monitors and devices, the page buttons weren't visible unless the user decreased font size.

- 508 Compliance remediation to the MAT HTML templates

  - HTML titles were made unique with the addition of the measure version.

  - Tables row and column headers now contain 'th' elements

  - Layout tables now contain "role = presentation" to clearly identify them as layout tables.

- Tuple Issue Resolution

  - When using a tuple as a function parameter, MAT pulls the spaces out from the tuple declaration, our fix will prevent the spaces from being removed.

.02
MAT Public Facing Website

Public Facing MAT Site Release Notes

The Production MAT release contains corrections for the following:

- Login button not working for IE
  - The login button worked for most browsers and versions but in some versions of IE it did not launch the login page.

- Helpdesk email address incorrect on the Contact Us page
