Bonnie v6.2.4 FHIR Release Notes

Bonnie FHIR version 6.2.4 is available as of Monday, October 17, 2022, at 8am ET. Below are the updates to Bonnie for version 6.2.4:

- When the gear icon on the measure page is selected it now displays an Export button. The Export button will only display for measures that have test cases and allows users to export test cases from Bonnie FHIR.
- The export file is a .zip file that contains
  - A single JSON file with all test cases for the measure in one file
  - Individual JSON files for each test case for the measure
- Bonnie FHIR users will be able to export the .zip file and save it to their desired location
- Following the release of MADiE MVP, slated for November, users will be able to copy and paste the contents of the JSON files into the MADiE test case editor for MADiE
