

MADiE 1.1.1 Release Notes

The following updates are included in the MADiE 1.1.1 release:

| Category | Feature Description |
|-----------------------|--|
| Measure Export | Validations have been added for fields that are now required to Export a Measure. The required fields are: <ul style="list-style-type: none">• Measure Details tab<ul style="list-style-type: none">○ Steward○ Developers○ Description• Population Criteria tab<ul style="list-style-type: none">○ Type |
| Test Case | When a user saves a test case with any resource that does not contain Meta.profile a warning message will display listing the ResourceId(s) that do not contain Meta.profile. |
| Test Case | MADiE has been updated to enable all users to run test cases on the test cases list page and on the edit test case page. This includes measures that are not owned or shared with the user. |
| Resolved Known Issues | <p>Date Added: 2/20/2023 When a user filters measures by selecting the My Measure tab, it is currently only displaying measures that the user owns and is not listing measures that have been shared with that user.</p> <p>Date Added: 3/15/2023 BONNIEMAT-1375 There is an issue in how reasonCode is getting mapped to ELM for the MedicationNotRequested datatype in QI-Core 4.1.1.</p> <p>Date Added: 3/15/2023 BONNIEMAT-1387 The CQL-to-ELM Translator permits unions of two different types</p> <p>Date Added: 3/28/2023 QI-Core specific datatypes are not being converted to data requirements correctly, causing measure export to fail.</p> <p>Date Added: 3/28/2023 BONNIEMAT-1389 Non-Boolean Population Criteria groups may not always show highlighting. If the test case doesn't contain any resources that satisfy the Initial Population no highlighting will display.</p> |
| Test Case Execution | MADiE has been updated to use FQM Execution 1.0.8. Release notes can be found here . |
| Measure Creation | MADiE has been updated to use CQL Translator 2.7.0. Release notes can be found here . |
