

MADiE 1.1.6 Release Notes

The following updates are included in the MADiE 1.1.6 release:

Category	Feature Description
UI Enhancements	All long text fields have been converted to expand dynamically to accommodate large amounts of text.
Population Criteria	QDM Measures: The Supplemental Data and Risk Adjustment tabs have been updated to include one description field. All definitions selected for the Supplemental Data or Risk Adjustment will use this description field.
Population Criteria	QDM Measures: The Population Criteria tab has been updated for consistency.
Export	MADiE has been updated to use the latest LiquidBase Templates. More information can be found here .
Test Case Execution	MADiE has been updated to use FQM-Execution 1.1.0. Release notes can be found here .
