MADiE 1.1.8 Release Notes

The following updates are included in the MADiE 1.1.8 release:

Category	Feature Description
Library Ownership	MADiE has been updated to support transferring library ownership. Measure developers may submit a request to transfer library ownership (with the library owner's approval) by contacting MADiE Support at semanticbits-madie-help@icf.com.
Measure Creation and Test Case Creation/Execution	**QI-Core Measures:** MADiE has been updated so that Denominator Exception is the last population listed, reflecting the order of measure calculations. The populations are now listed in the following order: • Initial Population • Denominator • Denominator Exclusion • Numerator • Numerator Exclusion • Denominator Exception This update impacts the following: • Population Criteria tab, Populations sub-tab • Test Cases tab, Expected/Actual sub-tab
Measure Creation	**QDM Measures**: MADiE has been updated so that Denominator Exception is the last population listed on the Population Criteria tab/Populations sub-tab, reflecting the order of measure calculations. The populations are now listed in the following order: • Initial Population • Denominator • Denominator Exclusion • Numerator • Numerator Exclusion • Denominator Exception
Test Case Execution	**QI Core Measures:** MADiE has been updated to use FQM Execution Engine 1.2.1. More information can be found here.
Resolved Known Issues	BONNIEMAT-1479 fixed coverage and highlighting in nested clause scenarios
