MADiE 1.1.10 Release Notes

The following updates are included in the MADiE 1.1.10 release:

Category	Feature Description
Test Case Export	**QI-Core Measures:** The following Test Case Export updates have been made: • The fullUrl value has been added to the measureReport section. • The evaluatedResource now contains properly constructed fullUrl (without a leading slash ("/")).
Test Case JSON	**QI-Core Measures:** Replaced existing PatientID references in Test Case JSON in MADiE and the export JSON file with the UUID value.
Test Case Import	**QI-Core Measures:** MADiE has been updated to support importing test cases after they have been exported from MADiE. • Test cases imported with a PatientID that matches an existing test case in the measure will be overwritten by the imported JSON. The expected and actual values on the test case will not change. • Test cases imported with a PatientID that does not match an existing test case in the measure will not be imported at this time.
Measure Creation	**QDM Measures:** MADiE has updated QDM Measure Observation validations for Continuous Variable and Ratio measures. • Patient-based measure will not specify input parameters • For measures that are not Patient-based, the input parameter type must match the type of element being returned in the list for the associated population. o For example: if Measure Population in CV measure returns List<"Encounter, Performed">, then the associated Measure Observation's input parameter must be "Encounter, Performed"
Measure Creation	**QDM Measures:** MADiE has been updated to support versioning and drafting QDM measures.
Measure Creation	**QDM Measures:** MADiE has updated the list of Measure Type options to be conformant with HL7 standards.
Test Case Execution	**QDM Measures:** MADiE has been updated to use CQM Execution Engine 4.1.3. More information can be found here.
Test Case Execution	**QI Core Measures:** MADiE has been updated to use FQM Execution Engine 1.2.2. More information can be found here. • BONNIEMAT-1511
Measure Creation	MADiE has been updated to use CQL-ELM Translator 2.11.0. More information can be found here. • BONNIEMAT-1326 • BONNIEMAT-1415 • BONNIEMAT-1428
