

MADiE 1.3.1 Release Notes

The following updates are included in the MADiE 1.3.1 release:

Category	Feature Description
Measure Creation	QDM Measures: MADiE was updated to add an optional text field for users to enter information about the improvement notation for all available options (previously this was only available if 'Other' was selected.)
Test Case Creation	QDM Measures: Number Type attributes are now available for all applicable Elements.
Test Case Execution	QDM Measures: Test case highlighting has been updated to match QI-Core highlighting.
Resolved Known Issue	Test cases for measures that include negation in the CQL logic are not able to be executed, the 'Run Test Cases' button is not enabling. BONNIEMAT-1782
