

MADiE 1.3.3 Release Notes

The following updates are included in the MADiE 1.3.3 release:

Category	Feature Description
Test Case Creation	The Test Cases tab displays the total number of test cases in the measure in parentheses.
Test Case Creation	QDM Measures: The button for importing test cases from Bonnie is renamed to 'Import from Bonnie'. QI-Core Measures: The button for importing test cases that were previously exported from MADiE is renamed to 'Import from MADiE'.
Resolved Known Issues	QDM Measures: For some test cases, measure logic is not highlighted on the test case list coverage page while the Test Cases Coverage Indicator percentage correctly reflects the logic that has been evaluated by the test cases. BONNIEMAT-1817 QI-Core Measures: When there are two definitions with the same definition name in the library or included libraries, the coverage results are not as expected. For example, if there is a definition with the name "Initial Population" present in the main library and in the included library, the coverage result is not as expected. BONNIEMAT-1812
