

# MADiE 2.1.2 Release Notes

The following updates are included in the MADiE 2.1.2 release:

<b>Category</b>	<b>Feature Description</b>
Measure Creation	A new tab called "Functions" has been added to the CQL Editor. On this tab, users can use a user interface to build functions to be placed into the measure CQL.
Measure Creation	<b>QI-Core Measures:</b> MADiE now supports the ability for users to search and apply codes and/or value sets into their CQL directly while working in MADiE.
Measure Creation	<b>QDM Measures:</b> If a measure CQL contains a retrieve without a filter, MADiE will now display an error to the user. ( <a href="#">MADIE-1705</a> )
